

Parts Manual

The intent of this parts manual is to provide the relevant information to accurately order the correct replacement parts for Windsor Products. Where part numbers are not available, there are notes that instruct what information is needed to order the correct part. The intent is not to show all parts of each unit, but only the parts that are readily replaceable.

Prices apply only to the specific sizes and descriptions listed. This price list supercedes all previous price lists and quotations. Special size parts are priced at the next largest size times two. All published list prices are subject to change at any time.

Each section is broken down by product type, similar to the Windsor Price Books. Windsor Series, Pinnacle Series, Next Dimension Series, and Legend Series is shown, where offered, in each section. Within each section there is an exploded view drawing and a parts list page listing each part on the drawing. On the parts list page there is an index where the page can be found showing the detail of the part. The parts manual contains the following sections:

Windsor Series

- Casement
- Awning
- Double Hung
- Glide-By

Pinnacle Series

- Casement
- Operating Radius Casement
- Awning
- Double Hung
- Radius Single Hung
- Glide-By
- Direct Set / Radius
- Sliding Patio Door
- Swinging Patio Door

Next Dimension Series

Legend Series
